ALLEGED SLAYER'S MOTHER SEEKS TO PROVE INNOCENCE

Bishop Says Inquiry Failed to Cast Any Reflections on Havro Rector.

BULLETIN.—That Mrs. Margaret Carlson deliberately attempted to win the Rev. L. J. Christler, rector of St. Mark's Episcopal church of this city, from his wife, and that, failing, she shot the minister and then, herself, is the belief of Bishop Frederick Faber, head of the diocese of Montana, according to a statement made by him Monday.

[BY ASSOCIATED PRESS.]
Havro, Mont.—While Mrs. Christler is on an eastbound train, accompanying the body of her slain husband, Leonard J. Christler, rector of St. Mark's church and known as the "Bishop of All Outdoors," Mrs. Joseph Pyle, mother of Mrs. Margaret Carlson, whose body was found beside that of Christler, is attempting to prove that her daughter did not commit murder and suicide.

"I do not believe Margaret did it," said Mrs. Pyle shortly after her arrival in Havro from her home in Butte. "I shall not be satisfied until I find who owned the gun." Her reference was to a .35 calibre revolver found in the hand of Mrs. Carlson when the bodies were discovered.

"Margaret owned and carried for six years a small .22 calibre revolver," continued Mrs. Pyle. "Had this weapon been found in her hand instead of the larger one, it might be reasonable to take that as evidence that she fired the shots."

The smaller revolver was found in Mrs. Carlson's handbag following the tragedy.

Piecing Torn Letter.
Mrs. Pyle is now engaged in piecing together bits of a torn letter found in the waste basket in her daughter's room and which she declares is in Mrs. Carlson's handwriting. That Mrs. Carlson had an infatuation for the minister is declared by many connected with the case, including Mrs. Pyle.

A letter found in the room of Mrs. Carlson, dated in California Aug. 25, says:

"Dear Margaret: I have been thinking a great deal lately that it is not fair that you should have any legal restraint on you. We have been apart over a year and there is absolutely no chance for happiness for you as my husband. No doubt you have thought of it and are too proud to mention it. No matter; you are a clever, good looking woman and there are lots of good successful men who would make you happy. Probably you have met one over this. If this is so, I am mighty happy and will do all I can to fix things so that you can be free to marry."

Pastor Held Homeless.
Attached to this letter was one said to be in the handwriting of the Rev. Mr. Christler. In part it says: "Am amazed at Frank's attitude. Why not be honest with ourselves. When his beginning of honesty is in the hands of the devil, he contracted while you two were partners, then talk about a move to the next step; why buck in such a manner when he owes your mother and daughter the truth? He is a coward and a sneak and all the burdens of debt on your heart and shoulders?"

"Anyhow I want to see you clean the state at Havro. Am coming to help," said the letter.

Bishop Frederick Faber of Helena, head of the Episcopal diocese of Montana, who arrived in Havro 24 hours after the tragedy, said his investigation, beginning more than a year and a half ago, failed to cast any reflections on the characters of Mrs. Carlson or Mr. Christler.

Fascisti Leader Forces Italy to Choose New State Head

Benito Mussolini

Benito Mussolini

The resignation of the Italian cabinet, headed by Premier Facta, forced by the Fascisti through their opposition to the cabinet and their threat to mobilize military and industrial forces unless the cabinet resigned, brings Italy face to face with another political crisis.

"Benito Mussolini, head of the Fascisti, is the man responsible for the rise in power of this body. Early dispatches stated that Vittorio Orlando, premier during the war, or Giovanni Giolitti, also a former premier, might be summoned by King Emmanuel to form a new cabinet."

REDS FIND LITTLE IN VLADIVOSTOK
Exodus of 15,000 Persons Leaves Siberian City Scanty Prize.

Vladivostok.—Except for the arms which the Japanese were unable to remove when they evacuated Vladivostok, little was left here for the incoming troops.

The "white" troops took a shipload of ammunition, which it was reported was going to Chang Tso Lin the uncrowned king of Manchuria. It is estimated 15,000 persons left this city prior to the entry of the red forces. During the panic they sold their possessions greatly below their real value. Sabia coats were sold for a few pennies and a French motor car went for 65 rubles, as thus far the reds have not molested anybody.

Reports of a massacre at Nikolai were denied by Japanese arriving from there. The Chita forces have expressed a desire to live in peace and amity with all nations and to open trade relations with them.

KIDNAPING PARTY FAILS; ONE DEAD, CONSTABLE HURT

OFFICER SHOOT WHEN SEIZED BY MOTOR PARTY. MEN ARE MASKED

[BY ASSOCIATED PRESS.]
Hearshville, Okla.—Rocco Adkins, Dower, Okla., was shot to death and Thomas Rogers, Speller City constable, was probably fatally wounded at Speller City, near here, Sunday night, when a band of masked men, of which Adkins was a member, called him from a motion picture theater and attempted to kidnap him in a waiting motor car. Another man, unidentified, is known to have been shot in the leg.

Rogers drew a pistol and began firing when the party attempted to enter him into the motor car, police said. They reported he admitted killing Adkins. Rogers is near death at a local hospital. Other men of the masked party may have been wounded, according to Constable George Davis, who emptied his pistol after the machine in which they drove away.

Local police say the members of the band were blue jumpers and masks of dark blue material. They were said to be members of a newly organized alleged secret society known as "The True Blues."

GOODMAN UNDER BOARD OF CONTROL

Judge Defers Passing Sentence for One Year Upon Plea of Guilty.

Thomas Goodman pleaded guilty in municipal court here Monday, to a second offense charge of driving while intoxicated and was placed under the state board of control for one year by Judge H. L. Maxwell. He deferred pronouncing sentence until Oct. 30, 1923. M. O. Mount appeared for him and District Attorney S. G. Hildner recommended a year under the board of control.

Goodman was warned that if he violated any of the board's rules it would land him in state prison at Waupun for a term of not more than three years.

"I'm not going to say much to you because I know it would only be wasting my time and your valuable time," said the judge. "You have one but yourself to blame for your trouble. When I find that policeman 333 a few weeks ago I'd like to be down here to see him and tell him because he struck Thomas Goodman."

Madison.—Wisconsin, with its plan for education of children forced into industry before the completion of a normal schooling, stands among the leaders of a world-wide movement for the economic betterment of working boys and girls. George P. Hambrecht, educational director of vocational education, said Monday on his return from a two months' survey of conditions and school methods in Europe.

The country which first solves this problem of giving education to children in industry, by bringing to them organized opportunity for advancement, will take the lead among the nations of the world. Mr. Hambrecht declared. He expressed the belief that only by giving the working boy or girl a chance to improve his condition by further education can a country make its economic standards and the standards of its great mass of working people.

This state, with its compulsory part time education laws, regulating a number of the working children up to the age of 18, to spend at least eight hours a week in school, he said, has taken as long a step as any other state in making to afford the needed education opportunity to working children.

The nations of Europe, Mr. Hambrecht said, long ago recognized the problem which Wisconsin has been attempting to solve for the past few years and in some instances have their plans in better working order.

He said, however, that the leadership in the Wisconsin school movement was as advanced as that held by any other country, and its laws are broadly inclusive. Practical application of these laws, opening opportunity for education of all Wisconsin children up to 18 years, raises problems the solution of which will be made easier by a study of methods used by European countries, Mr. Hambrecht declared.

MOTHER OF LOCAL THEATER MANAGER DIES IN THE EAST

Charles G. Douth, Sherman avenue, manager of the Nixes theater here, died word Sunday of the sudden death of his mother, Mrs. Lucy B. Douth, 76, at the home of her daughter, Mrs. Bertha Leary, North Daus, Mass.

Her home was in Springfield, Mass., and she was visiting her daughter at the time of her death. Sunday. There were no other children, and Mr. Douth died some years ago.

Mr. and Mrs. Douth of this city left at noon Monday, and will arrive at Springfield in time for the services there at 3 p. m. Wednesday. Services will be held Tuesday at North Daus, and the theater here will be closed on both those afternoons. The length of the Douths' stay in the east has not been determined.

Woman's Story of Murder Credited

COURT HAS RECORD DAY-12 CASES UP

License and Traffic Violations Many—One Larceny Action Is Begun.

Rock county municipal court was the scene of another rush of business Monday morning, with a dozen cases before Judge H. L. Maxwell. 10 of which were disposed of and the others continued. Violations ranged from breaking of automobile traffic laws to stealing.

James Heath pleaded not guilty to the charge of stealing an \$18 tire from a car owned by Hayes-Fountain-Hayes and his trial was set for Nov. 2, his car being held as bail. E. H. Ryan appeared for him.

Thelma Wilson, 19, pleaded guilty to driving while intoxicated. She was fined \$100 and costs or six months. He had been working with a road gang and went to Beloit Friday night, where he was caught by police. He was held in the jail at Beloit. He was charged with embezzlement of \$100 in Liberty bonds, waived examination and his trial was set for Nov. 2. S. N. Nolan appeared for him.

C. C. Bennett, state auto license inspector, on one of his unexpected visits to Rock county, was responsible for the arraignment of two violators. William W. Sprague, Valley, paid a fine and costs of \$17.95 for driving his car all year without a license and was ordered to apply for one at once. He denied having made the statement that he had not a license and was not enough to catch him. Niles Hestgard, Orfordville, had license plates but didn't display them on his car so he was released upon payment of costs, \$4.35.

Running two cars on one set of license plates is one of the most common violations, said Mr. Bennett. In Grant county recently he made 25 arrests while he made 17 in Green county.

No Milk License.
Dr. L. J. Woodworth was complainant in the first case brought under the new city milk ordinance in which Thomas Amher, on Nov. 28, was charged with peddling milk without a license.

The two motorcycle patrolmen—George Porter, city, and Morton Miller, county—made three arrests over the week-end. Henry Lawson, Rock county, was fined \$12.40 for hitting 42 miles on North Street Saturday night. Miller arrested two for reckless driving but they will not appear in court until Tuesday. The court quickly in passing milk car license charges that one struck and badly damaged the side of his motorcycle.

Matt Newman paid \$3.40 for violating the parking ordinance.

Judge Maxwell granted three judgments, as follows: Bower City Implement company vs. Paul Gehrike, \$138.53; J. A. Strimple vs. Paul Gehrike, \$155.95 and costs; Paul Mohr vs. Henry Lawson, \$12.40 and costs. Plaintiffs won their decisions on promissory notes in all three cases. E. H. Peterson was plaintiff's attorney in each case.

Wisconsin Man Slain by Syrians

New York.—The murder by bandits near Aleppo, Syria, of James Lester Wright of Waukegan, Wis., a near east relief worker, was reported Monday in a cable message received by the headquarters of Stanley Kerry, one of its workers in the Aleppo district.

The message said Wright was in charge of a group of one thousand Armenian orphans being taken from Harput, Turkey to Aleppo. The message did not state the exact location of the attack or whether or not the children escaped.

LEGAL FIGHT FOR FUTURES TRADING

U. S. Seeks to Regulate Trade as Interstate, Is One Complaint.

[BY ASSOCIATED PRESS.]
Chicago.—The Chicago Board of Trade Monday made its first move to get the constitutionality of the grain futures trade, when it filed in federal district court here a petition for injunction restraining the government from enforcing the provisions of the new law.

The law, enacted to take the place of the former Capper-Tincher act, declared unconstitutional by the supreme court, was passed to become effective Nov. 1.

Plead State Rights.
The bill of complaint, filed by Henry S. Robbins, counsel for the board, charged that the new law to regulate, as interstate commerce, trade that is wholly state, that it interferes with state rights to govern economic and social conditions, and that it deprives citizens of their property by admitting representatives of cooperative bodies and permitting them to rebate commissions in violation of rules observed by other members.

Further charges of unconstitutionality are made on the ground that the law makes violation of its provisions a crime and constitutes the secretary of agriculture, the secretary of commerce and the attorney general a commission with power to deprive offenders of their rights to pursue lawful avocations, whereas such criminal laws are, under the constitution, enforceable by courts with a jury trial.

400 Persons at Church Session

Milton Junction.—Four hundred attended the services at the quarterly meeting of the Seventh Day Baptist church here Friday. Saturday and Sunday. The Rev. E. G. Van Horn, pastor of the church, was moderator. The largest meeting was Saturday, when every church in the Southern Wisconsin conference was represented. The next meeting will be at Walworth in January, it was decided.

The Rev. G. D. Hargis, Walworth, the Rev. H. N. Jordan, Milton, and Walter G. Smith, Walworth, were the speakers. Saturday morning a joint session with the Methodists was held, when the address was made by Dr. Edwin Smith, Chicago. A business session was held afterward and a devotional service, addressed by the Rev. L. D. Seay, Albion, followed.

Linn Couple in 60th Anniversary

Lake Geneva.—Mr. and Mrs. Henry Buell on Sunday celebrated their 60th wedding anniversary at their home in Lake Geneva, where they have lived since their wedding. They are among the oldest pioneers of Walworth county. Mr. Buell, 77, has two children living, Ralph A. Buell, principal of Milton High School, and George Buell, who tends the home farm. Another son, H. C. Buell, who was for 15 years connected with the University of Chicago, died at Polo, Ill., early in the year.

Dr. Roop Heads Ministers' Ass'n.

The Rev. H. U. Roop, pastor of the United Brethren church, was elected president of the Janesville Ministerial association, and the Rev. J. A. Melrose of the Presbyterian church, secretary and moderator Monday morning at the U. M. C. A.

The week of prayer, the second week in November, was discussed and plans made with Secretary J. A. Melrose of the U. M. C. A. for observance.

Dr. Roop is professor of religious education in the Chicago M. C. A. college. In June he completed his work at the University of Chicago for his degree of doctor of divinity. He succeeds the Rev. Mr. Melrose as president of the local association.

RUSH BUILDING OF NEW G. M. C. UNITS

Progress Seen on Chevrolet and Fisher Plants—Bowman Named Manager.

H. P. Bowman, St. Louis, Mo., named as general manager of the Chevrolet assembly division in this city, has arrived here and taken charge of the program of work preliminary to the G. M. C. auto company going into production.

The construction program as mapped out for the Chevrolet and Fisher Body companies, is well under way on the property in Spring Brook. The steel for the new addition at the rear of the main assembly plant formerly occupied by the Sampson tractor company, has been fabricated and is declared to be about 45 per cent complete.

To the south of the assembly plant, engineers are laying out the ground for the plant to be occupied by the Fisher Body company in the assembly of Chevrolet auto bodies. This building will be 160 by 620 feet. The steel for this structure is on the ground, according to the engineers.

200 Men Working.
There are about 200 construction workers at the site of the Chevrolet plants, most of whom are local workmen. In addition there are several contract jobs underway.

The building program is proceeding favorably, declared Joseph E. Egert, construction engineer.

Changes are being made in the shops and offices of the G. M. C. building, to suit the needs of the Chevrolet division. The office rooms are being remodeled to some extent. Only a few changes and shifts will be necessary in the assembly shop, which is a new building.

It is evident that the G. M. C. is pushing its building program and that the new unit will be erected as fast as possible.

No official date was announced by the officials for the start in production. Rather they are concentrating attention on the building program.

Build Units First.

More Humanity Urged in Business

Business is hampered by too much machinery of law, it is urged by the human element, Thomas Cassey, vice-president of a Chicago machinery concern, told the Lions' Den at the Grand hotel at noon Monday. He said custom had grown much too heavy and that the machinery of law was hampering business. Mr. Cassey was formerly a Janesville resident.

Meetings of the Den will hereafter be held Wednesday nights, it was decided Monday. Edward Heidner was elected Lion Tamer to succeed C. E. Leon, resigned.

The local club plans to hold a meeting in Beloit with a view to organizing a Lions' Den there.

Anti-Red Leader Given Glad Welcome on Arrival to Form Cabinet.

[BY ASSOCIATED PRESS.]
Rome.—Serious rioting broke out here when parties of fascisti, while passing through a workingmen's quarter, ran into a hotbed of subversive elements, were attacked by communists who threw stones and fired revolvers. The fascisti replied.

One person was killed and one fascisti wounded, and the fascisti, who were greatly outnumbered, had two of their men taken prisoner. Groups in motor cars went to the rescue of their companions, but troops occupied the zone with an overwhelming number of soldiers.

Benito Mussolini, leader of the fascisti, called by King Victor Emmanuel to form a cabinet, arrived in Rome Monday forenoon. The crowds thronging the neighborhood of the railway terminal gave him a great welcome.

FASCISTI PREPARE TO TAKE OVER GOVERNMENT

London.—The fascisti forces of fascisti were ready Monday to take over the government of Italy, according to dispatches. Their leader, Dr. Benito Mussolini, was scheduled to meet the king and answer the call of the sovereign for him to create a new ministry to replace the Facta government, whose downfall was brought about last week by the growing tide of fascist power and sympathy.

He declared "the fascisti must go into power without alliances with any other party, but granting some portfolios outside the fascisti party."

In forming a new cabinet, Mussolini said, a national cabinet must be the portfolio of interior and foreign affairs and appoint Gen. Diaz minister of war. Admiral Diaz, minister of finance and include in the governing body the Catholic deputy Cavasconi and the liberal senator Lusignoli, now prefect of Milan, conferring the other portfolios on fascisti.

Held Bait for Freedom

The press of Britain is divided in appraising the fascisti movement in its hour of triumph. The newspapers are split on the purposes and accomplishments of the black shirted army in Italy look on the victory of Mussolini as a "blow for freedom which has twice the value of a nation's defeat." They are split on the progress of the movement, which has been watched with ever growing interest.

AMERICANS CARED BY FASCISTI

Civitavecchia, Italy.—All passengers on the Paris express which arrived here Sunday were requested to alight by the fascisti.

Mrs. Samuel W. Williams of Virginia, her two daughters and her sister were the only American passengers on the train. They were not molested but were escorted to the Grand Hotel by officers.

They expected to return to France on the first train.

TROOPS LINE ROADS WITH FIXED BAYONETS

Rome.—Line the road from Civitavecchia to Rome, and barbed wire guarded by sentries with fixed bayonets protected the entrances to Albano, Tivoli, Anagnina and Bracciano, 20 miles to the northwest of Rome.

Railway communication was still interrupted between Civitavecchia and Rome.

Within a radius of 30 miles from Rome, 60,000 fascisti were encamped over night, many of them sending lorries into the capital to bring back the bread necessary for their sustenance. The troops were permitted to loot the lorries to pass.

Both regulars and fascisti bore themselves with marked graciousness towards foreigners, doing their utmost to alleviate the inconvenience caused by the prevalence of something near martial law.

FORMER RESIDENT IS BURIED MONDAY

Funeral services for Delbert Howe, formerly a resident of this vicinity, were conducted Monday morning at the grave in Mt. Olivet cemetery by the Rev. Theodorick Lepak, St. Patrick's church. The body arrived in this city at 11:30 from Havro, Mont., where the death occurred.

Funeral services were: John Nolan, Thomas Nolan, John Timmons, John Drew, J. A. Ryan and Edward Donahue.

Those from out of town who attended were: Mr. and Mrs. George Howe and J. Donahue, Barbara Miss Margaret Howe, Elgin, Ill.; Mr. and Mrs. Matt Timmons, Beloit; Mr. and Mrs. Matt Mulcahy and Michael Mulcahy, Footville.

Dean James F. Ryan and the Rev. Charles M. Olson took part in the confirmation services at Beloit, Sunday. The Rev. Archbishop S. G. Messner, Milwaukee, conducted the services.

COUNTIES SEEKING ACCREDIT TESTING

Ten Counties in Southern Section Hot After Bovine "T. B."

The largest solid area free from tubercular cattle in America is located in Wisconsin.

Twelve counties in a single block in northern Wisconsin are already in the "tubercular free" list. These are the 12 pioneer counties as reported by O. H. Ellason, state veterinarian: Douglas, Bayfield, Ashland, Iron, Washburn, Sawyer, Price, Dickinson, Rusk, Barron, Lincoln, and Chippewa. Two more counties, Vilas and Eau Claire will be free from tubercular cattle by December 1.

"When the work in these two new counties is completed more than 500,000 dairy cattle in Wisconsin will have been under the 'needle' in area test work. The 14 counties average more than 21,000 cattle each. Barron county heads the list with 67,000 cattle tested."

Indications are that about 10 counties in the southern part of the state will petition for area testing this winter. The inspectors have been pushing the work at a rapid rate. One inspector recently reported the record of 50 herds in one week. In no county has the condemnation been higher than one and one-half percent. Plugging losses at an average of one per cent. Ellason estimates that the increased value of products and in cattle will more than make up for the cost of testing in any area in the state.

Badger Farmers To Exhibit Grains At Chicago Show

Madison — Wisconsin farmers are responding to the call for exhibits of grain to display at the coming International Show in Chicago from December 2 to 9.

More than 1,500 grain and hay growers have already been enlisted to exhibit their products on the map, and the present indications are that the response will give Wisconsin as any state entered.

E. D. Holder, of the agricultural staff of the University of Wisconsin reports that more prizes were won by Badger hay exhibitors last year than by exhibitors from any other state in the northern region. This was the second time in the past four years that Wisconsin showed her supremacy in this department. Sweepstakes on alfalfa and clover in Wisconsin are showing will surpass that of any previous year.

NORMAL SCHOOLS ASK MORE MONEY

Requests for Budgets will be Over a Million in Excess of '21-'22.

[An Associated Press.]

Madison—Budget requests of the nine Wisconsin normal schools will total \$4,385,273 for the coming biennium, a report completed today by William Kittle, secretary of the board of normal schools, shows. This is an increase of nearly \$1,500,000 over expenditures of \$3,000,000 made in these schools during the past two years.

The budget drawn up by the board of normal schools requests an appropriation of \$2,560,941 for the school year 1923-24 and of \$2,415,332 for the year 1924-25. In 1923-24, expenditures for operation would amount to \$1,597,255, for maintenance \$919,111 and for capital \$99,575. In 1924-25, operation expenditures would amount to \$1,723,541; maintenance \$93,767 and capital \$91,954.

Normal Schools Ask More

Larger appropriations are needed by the normal schools, Mr. Kittle said, because of the marked increase in enrollment during the past year. Attendance at the teacher training institutions jumped from 5,233 in 1921 to 5,385 in 1922, an increase of 152 or nearly 2.5 per cent.

The budget requests of the nine normal schools for the two years of the coming biennium follow:

School	1923-24	1924-25
St. Cloud	\$172,520	\$153,490
La Crosse	262,880	216,750
Milwaukee	382,385	352,190
Oshkosh	357,335	352,115
Platteville	352,211	328,211
River Falls	309,170	301,135
Stevens Point	253,397	247,120
Superior	238,935	187,826
Whitewater	187,919	193,592
Total	\$2,560,941	\$2,415,332

The largest requested appropriation for a single school is asked for Oshkosh, where \$347,755 is wanted to build a new teacher training school. At present classes are held in old barracks which are said to be unsatisfactory.

New Buildings Wanted

At Stevens Point, \$50,000 is asked for 1923-24 and \$47,000 for 1924-25 to provide for a new teacher training building. Superior asks \$50,500 for the first year and \$15,250 for the second to construct a front unit for the school gymnasium.

A new teacher training building is wanted by the River Falls Normal school which requests an appropriation of \$17,250 for capital expenditures in 1923-24 and \$17,630 in 1924-25. Milwaukee Normal school asks \$58,250 for the next year to add classrooms to its main building, and \$37,250 for the following year with which to purchase land.

The La Crosse normal asks \$42,335 for the purchase of land during the next year, and Eau Claire normal for \$37,500 to be used for the same purpose. Platteville asks \$49,560 for the purchase of land in 1923-24 and \$45,121 for the same purpose in 1924-25.

The extensive building program outlined by the normal schools is reported to be necessary because of the increased enrollment and the fact that the legislatures for the past six years have made practically no appropriations for capital expenditures. Extensions, repairs and new buildings are now needed by the institutions.

Expenses of the office of the board of normal schools will be run for the coming biennium at about \$1,500 less each year than during the present fiscal year, Mr. Kittle said.

Rock County Is Badly in Need of Sanatorium

Mrs. Louise Peaton Brand, formerly of this city and at present head of the publication department of the Wisconsin Anti-Tuberculosis association, is aiding in the movement inaugurated at a county conference here Friday for the purpose of securing favorable action on the Rock county sanatorium proposition at the November meeting of the county board. Mrs. Brand was one of the speakers at the conference Friday and spent the following day conferring with local advocates of the institution as to the plan of campaign during the next two weeks.

"There's no surer way for a county board to make themselves popular politically," said Mrs. Brand, "than by building a county tuberculosis sanatorium. It is a fact that of all county institutions, the tuberculosis sanatorium, once it is established, is the most popular. In other counties that have built sanatoriums, county board members have expressed surprise to find how quickly opposition on the part of the taxpayers vanished after the people see the results and what such an institution means in an economical as well as humanitarian way."

"The sanatorium's greatest value is the protection it gives to people generally through the voluntary isolation of tubercular patients, and because the sanatorium serves as a real center of health education. Industrial plants are being more and more careful about locating in communities that have a high death rate from tuberculosis. Rock county's tuberculosis death rate is one of the highest in the state and free chest clinics held here have showed over 30 per cent of the persons examined to be tubercular. The average in all other counties of the state has been but 15 per cent."

Two Arrests in Shield Mystery

NEWARK—Two arrests have been made in connection with the disappearance two weeks ago of Philip J. Shield, American relief worker at Simsbury, according to a telegram received here from Col. William H. Haskell, head of the field forces of the American Relief administration. Until Saturday night last, the authorities were inclined to believe the relief worker, whose home is in Richmond, Va., had committed suicide, but early Sunday certain developments not yet made public led them to believe that Shield may have been murdered. Detailed information concerning the arrests was not received here.

4 Die on 4th Floor of Building in 4 Months

NEWARK, N. J.—Newark is wondering what may be the matter with the fourth floor of the building at 123 Barker street, where four men, who have had business on that floor, died within four months: Robert Steel, an engineer; Jacob Wandling, a lawyer; Frank M. McDermott, a lawyer, who died soon after; and William P. Quigley, lawyer.

Two Styles at your store now

Instant Quaker Oats

Cook in 3 to 5 minutes

There are now two styles of Quaker Oats, the Instant and the regular.

Instant Quaker, perfected by our experts, is the quickest cooking oats in the world. It cooks to perfection in 3 to 5 minutes.

All Quaker Oats have that exquisite flavor which has won the world. All are flaked from plump grains only—just the rich, plump, flaky oats.

But in Instant Quaker the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And the small thin flakes cook quickly.

Your grocer has both styles. If you want oats almost ready, ask for Instant Quaker. Look for "Instant" on the label.

WOMEN MOTORISTS' HAT IS PATENTED

London—A motoring hat for women has just been invented and patented, which is claimed to protect women's hair from the effects of wind and rain. It is designed on the lines of a man's flying helmet, is made of silk and fitted with a silk hood over the back, and small pads over the ears. The hood and pads are detachable and it is claimed the wearer can finish a long motor tour looking and feeling perfectly tidy and without a headache.

MISSING GIRL IS FOUND; OTHER SOUGHT

Superior—After what seemed to be a fruitless search for five days of the entire northwest, a girl, 15, was found. She was Lucy Sutton, 22, and Lizzy Sutton, 19, who ran away from their home at Danbury, Wis., last Monday, the local police picked up the eldest girl and is holding her for her father.

No trace of Lizzy can be found, the police said. The older sister, Lucy, failed to enlighten the authorities as to her hiding place, when questioned and refused to give any reason for the sudden departure from home.

Police throughout the northwest and at Minneapolis and St. Paul have been requested to be on the lookout for the other missing girl.

Millionaire of Illinois Missing

Chicago—Retaining Chicago attorneys to continue the search here for her missing husband, J. Howard Jayne, former member of the Illinois legislature who disappeared from his home at Monmouth last Tuesday, Mrs. Lynette Jayne was back in Monmouth Monday to open a fight to save what she can from his business enterprises, valued at \$2,000,000. Mrs. Jayne expressed the belief that her husband was being detained against his will, pending developments in connection with his business interests.

BLIND STUDENT IS COLUMBIA LEADER

[By Associated Press.]

New York—Three years ago Augustine F. Mason, who is blind, was denied admission to Columbia University because of the belief that his handicap would prevent him from attaining required scholastic standards. Later he persuaded authorities to give him a trial and soon proved his ability to keep pace with other students.

Today he is enrolled in the college of law and holder of one of three scholarships the college offers. He also is active in student organizations, expert at chess and checkers and a member of the varsity wrestling squad.

"Tie a String Around Your Finger"

—so you won't forget to stop at Bostwick's for these things." Time was when hubby hated like the deuce to "mix up with women's shopping" and was as full of alibis as a European diplomat.

The modern idea of merchandising has changed the retail store into a semi-public institution, so that Jones or Smith feels as much at home even in the ultra-feminine departments as he does in the theater or the market. Sometimes the remarks of our male guests lead us to believe they enjoy their shopping experiences even more than their wives do!

Bullfighters Demand Better Work Conditions

Medford City—Two unions of a rather unusual nature have just been formed here, the Bullfighters' Syndicate and the Union of Playwrights. The former has as its members all men who appear in the corridos from the monobios, or helpers, to the highest salaried matador. At the inaugural meeting it was decided to establish a wage scale, demand better bulls than were afforded last season, and better working conditions, whatever that may mean.

Unless coal reaches the bins shortly, the only place many Americans will be warm this winter will be under the collar.—Indianapolis Star.

Why Teeth Show

In pictures—and everywhere today
Millions are removing film

Have you noted how most pictures now show pretty teeth? And how countless people, wherever you look, show beautiful teeth when they smile nowadays?

Those are results of this new way of teeth cleaning, which millions now employ. Now we urge you to try it at our cost, and to start today.

Try combating film

Until late years, nearly all teeth were kept cloudy by a film. And 49 in 50 people suffered from film attacks.

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. It forms the basis of dingy coats, including tartar, unless you constantly combat it. Stains are absorbed by that film.

It also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. And all those troubles were constantly increasing, despite all care of the teeth.

Old ways ineffective

No ordinary tooth paste effectively fights film. In fact, tooth pastes based on soap and chalk even make the film more clinging.

So dental science has for years been seeking film combatants. Two effective methods have been found. Able authorities proved them by many careful tests. And now leading dentists almost the world over advise their daily use.

A new-type tooth paste has been created, based on modern research. The name is Pepsodent. In that tooth paste are embodied those two film combatants—one to curdle the film, one to remove it.

Careful people of fifty nations, are now using this new method, largely by dental advice. To millions of homes it is bringing a new dental era.

Two other new effects

Pepsodent brings two other effects which dental science has now proved essential.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

The ordinary tooth paste brings just opposite effects. It decreases these two great tooth-protecting agents which Nature has provided. Pepsodent, with every use, gives them manifold effect.

Thus to millions of people in every clime Pepsodent has brought new beauty, new protection. The benefits will be life-lasting. Tooth conditions among whole races are being altered by this method.

Brings Added Charms and Quickly

You will see the Pepsodent effects, amazing and delightful, after very little use.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

New beauty, new charm, comes with those whiter teeth. Also new safety, new cleanliness. Not by scouring teeth in any harmful way, but by fitting the film for easy removal.

This means too much to you and yours to be longer overlooked. Cut out this coupon now and present it at your store.

GIFFORD PINCHOT OUT-AND-OUT DRY

Pennsylvania Democrats Expect to Corral Much Moist Vote.

By DAVID LAWRENCE
Copyright, 1922, by Jansville Daily Gazette.

Harrisburg, Pa.—Pennsylvania's political situation is a peculiar anticlimax.

All the fuss and feathers, all the drama and all the posturing feeling on the subject of re-publican boss reached its climax with the nomination of Gifford Pinchot for governor.

Since then the campaign has been interesting chiefly because of the lack of interest shown by republican leaders and party workers who, in years gone by, used to corral the vote in the last two weeks and put the grand old party over the hurdles with record-breaking majorities.

Democracy of prominence will look you in the eye today and talk confidently of winning or at least cutting down to insignificant size the size of the Pinchot majority.

It is difficult to justify democratic optimism.

Pinchot None Dry
For one thing, Gifford Pinchot is an out-and-out dry. He is just as dry in a wet city when he is campaigning as he is in any dry country district.

There is not a drop of moisture in any of his speeches. "Farmer" McSparrin, who is the democratic nominee for governor, is much less rigid.

Another thing which cannot be overlooked is the absence of Penrose. This state has been accused of being a pocket veto. The republican party has functioned smoothly because one man issued commands and distribution of campaign funds. There is no big republican fund this year.

Not Like Old Days
In the days of Penrose there were different. There was no such thing as a light vote. If indifference prevailed, the leaders would send out word to get busy and the voters would be brought to the polls by the republican party.

Who Shall Lead?
What group or leader shall be recognized? There is little chance that Mr. Pinchot's victory will be effected by Mr. McSparrin, who is, after all, Gifford Pinchot, dry in the wool progressive, foe of bossism and a friend to the farmer.

But the friends of Pinchot who naturally want to line up all the support they can get for the candidate usually point out to the doubting Thomases that if they are uncertain what personage they will get from Pinchot if he is elected governor they can be very certain about the amount they will get from the democratic nominee.

Mr. McSparrin, if by chance he should win, namely nothing. That line of argument is having some effect. It must not be forgotten that Pinchot must have the co-operation of a friendly state legislature. His measures of reform cannot be put through by executive fiat.

Mr. Pinchot will feel the effects of Mr. Penrose's absence at the wheel. The republican organization isn't what it used to be, and there is of course an excellent chance for Gifford Pinchot to break the organization into more pieces than the number of atoms in the universe.

It is difficult to justify democratic optimism.

It is difficult to justify democratic optimism.

Kiwanis Club Takes Big Step Toward Dispensary for Charity Cases Here

To pave the way for the development of the future citizens of Jansville, the Jansville Kiwanis club has established an infirmary in connection with its welfare work which is hoped will eventually in the establishment of a city dispensary for charity cases.

The work of the Kiwanis club will be to provide for the underprivileged child not already cared for by some other civic organization, will be and is the main purpose for the work.

Democracy of prominence will look you in the eye today and talk confidently of winning or at least cutting down to insignificant size the size of the Pinchot majority.

EAT MORE SPUDS IN POTATO WEEK

Situation of Wisconsin Potato Growers Is Serious; Governor Issues Proclamation.

Madison.—The week of Nov. 6 to 11 has been designated Wisconsin Potato Week and potato growers are urged to buy the winter's supply during that period in an effort to relieve the farmers of the state and to take advantage of the prevailing low prices.

Gov. Blaine gave his endorsement to the move in a statement issued from his office, while the state department of markets, the Wisconsin Potato Growers association and the Wisconsin Potato Growers association prepared to actively promote it before the people of the state.

Picture Houses to Aid
Hundreds of motion picture houses throughout the state will be asked to show potato pictures during the week of Nov. 6 to 11.

Whereas, The farmers of Wisconsin have produced a crop of potatoes estimated at over 37,000,000 bushels, which crop is the largest ever produced in the state, and

Whereas, The farmers of the state must find a market for all of this large crop if they are to receive even a small return for their labor in producing this crop, and

Whereas, The consumers of the state can render valuable aid to the farmers by buying their winter's supply of potatoes at this time of the year, and

Whereas, The expense of marketing will be materially increased when shipping must be done in refrigerated cars during the freezing weather, which will add to the price paid by the consumer without material benefit to the farmers, therefore, I, John J. Blaine, governor, urge the consumers of the state to buy their winter's supply of potatoes during the week of Nov. 6 to 11, which has been designated as Wisconsin Potato week.

Glutted Markets
The decision to set aside a week for potato marketing was made by the state department of markets and potato growers when it was found that markets were glutted with Wisconsin stock, and that consumers who might be laying in their winter supply of potatoes would be forced to buy at prices as low as they will get this season.

Unless buyers come to the relief of farmers at this time, many of the potato growers will face financial ruin in the commercial sections of the state, the department says. They are unable to move much of their crop, and the price for the surplus is running as low as 25 cents a bushel.

An Immense Crop
Wisconsin's total crop this year is estimated at 37,000,000 bushels, compared to 31,400,000 produced in 1921 and a five year average of 28,000,000 bushels. The commercial crop that will be shipped to market is estimated at 20,000,000 bushels.

Already 4,117 cars have been shipped, compared with 2,473 cars shipped up to this time last year. If consumers make a special effort to lay in their supplies now, the congested markets may be relieved, and the department of markets believes, and the distributing centers opened for receipt of additional supplies now held on the farms.

SCENE WHERE MAN WAS BADLY BEATEN WHILE SLEEPING

Above is a picture of the home of Charles Beverdorf, near Postville, in which he was brutally attacked while asleep two weeks ago. There are no clues as to who his assailant was, although the Sheriff of Rice has conducted an investigation. Mr. Beverdorf is slowly recovering from injuries suffered when he was struck in the head with a club. The front door of the home was open after the attack. A cemetery is near the house.

Maintenance Men Given Wage Raise
[BY ASSOCIATED PRESS.]
Chicago.—Majority members of the United States railroad labor board today had reaffirmed their assertion that "a just and reasonable" wage shall be the basis for their decisions in wage disputes between carriers and employees.

The decision increased the wages of maintenance of way employees two cents an hour over the minimum established July 1, when the truckmen voted to strike and then held the nation in refrigerated cars during the freezing weather, which will add to the price paid by the consumer without material benefit to the farmers, therefore, I, John J. Blaine, governor, urge the consumers of the state to buy their winter's supply of potatoes during the week of Nov. 6 to 11, which has been designated as Wisconsin Potato week.

\$2,503 SUBSCRIBED FOR RED CROSS

City Campaign Ends Short of Quota—Response Is Good in County Drive.

With the close of the week's campaign in Janesville for the Red Cross organization showing a total of \$2,503 subscribed, Miss Hattie L. Alden, secretary, was engaged, Monday, in checking up to determine the extent to which the local organization benefits.

Indications Monday were that a large portion of the \$2,500 was in \$1 memberships which means that but 25 cents of each dollar membership fee goes to the support of the Janesville branch work which is keeping Miss Allen Glenn at work as school nurse.

Fred J. Holt, Edgerton, chairman for the Rock county chapter campaign, was optimistic, Monday, as to the results, and said that he believed the best canvass ever waged would show good results in the county. He was high in his praise of the work of the school teachers as assistant chairmen. A report on the results will be made Tuesday.

City Chairman Leo P. Bennett in a statement Monday said: "This is just a first thanks to the many loyal supporters of the Red Cross, to the workers and to those who subscribed to its support. We feel sure that many persons have been missed who wish to subscribe. We are asking these persons to please send their subscriptions and donations directly to the Janesville branch, Red Cross office. If all will do what they can, we know we will raise the amount necessary to supply the Red Cross with funds for the coming year's work. If any one wishes to raise his subscription it is not too late. Send you check to the Red Cross."

Open to Public—The faculty chorus, which meets at 6:15 every Tuesday evening at the high school, can now be entered by any townspeople who wish the instruction or the pleasure of singing. Miss Herdis Hanson, supervisor of music in the schools, directs the chorus, which has already made good progress.

SHALL THE UNITED STATES MAKE BANKRUPT NATIONS FINANCIALLY SOUND?

Insistently and regularly we have the most determined campaign in America to "stabilize" the finances of Europe. Much of the propaganda is instigated from a failure to understand the basic principles of finance. If we start out with the understanding that our first and most important consideration is American and the American people, we can get along better. It requires no great knowledge of finance to realize that a nation which issues a volume of paper money hopelessly beyond ability ever to redeem, is inviting bankruptcy. All the gold in the treasury of the United States dumped into Germany would not redeem the paper marks outstanding. But we are told that if we do not give some value to these marks we will participate in the financial crash in Europe. There is bound to be such a crash. It is inevitable, no matter what is done. It is punishment for violation of every economic principle in finance. Germany has two horns only to her dilemma—eventual repudiation or bankruptcy. No one is so stupid as to for a moment believe that Russia will ever redeem her trillions of paper rubles, or that Austria will make the paper kroner worth par. It is utterly impossible to do this even if all the wealth were conscripted and all private individuals were bankrupted. Germany's paper mark was issued by fiat without hope for redemption and as a makeshift. Stabilization of currencies, getting value into the monies and exchange of all nations, is the necessary part of commerce. But the effort along these lines must consider how far the United States or any other nation can go in competition with printing presses turning out paper money at the rate of millions a week. Would not the result be that as soon as we had once steadied the mark we would have to do it again? The plea now is to pay Germany in gold for her exports to this country. Others advocate a loan in gold and an effort to bolster up the mark now worthless as so much baled paper. The loan will have to be at least \$2,000,000,000. Immediate deflation of the mark at a price fixed by the government will follow. France in that case will insist—will insist in any case—that Germany must the reparations payments since France can only be stabilized financially through reparations. But how will that permanently relieve France when so many millions are being expended in keeping up costly military establishments? By eventual guarantees that in case Germany again attacks France, immediate assistance will be given her in money and armies? Thus we come back to the very initial menace—war, ever threatening and impending. Europe is still a nervous old woman frightened at shadows, seeing in every step taken by any single nation, ambition for more power, added territory and revenge. The greatest impediment to war is the very financial condition that now exists. So long as the debt to the United States is a burden, always to be figured in any war plans, and acting as a barrier against more loans, so long will Europe hesitate about a war involving the larger powers, and the smaller ones will find that war is extremely unpopular. Europe is like an extravagant son who spends all he gets, goes into debt, fills the pockets of every tradesman with I. O. U.'s and then throws himself begging for mercy and more assistance on the patient but easy-going parent, or his Uncle Sam. There seems to be no precedent by which the United States is asked to cancel its debts and then make a loan to Germany or to France in order that billions of face value paper money shall be redeemed. Twelve months ago Germany said she was bankrupt. In May the cry was repeated. In June the government was about to fall because of financial disaster. But Germany lives and is producing. Creating for herself a fool's financial paradise with paper money, she knows that eventually she must pay some one or enter international bankruptcy. But Germany plays safe for Germans. Her bankruptcy might be averted if Germany conscripted her own wealth. That will not be done. Germany would rather sell blue sky to some foreigner as she did with her speculation in marks whereby American citizens were mulcted out of a billion dollars in gold, than to take a dollar from a billionaire of the Stines class. It would seem that Germany needs a republicanism if we might arrange an international one that would work for justice and not for selfish purposes. We have become convinced in America that the international plan for the rehabilitation of the finances of Europe is to make America pay the larger share of the debts. Whenever an effort is made by Europe to solve the problem of its finances it puts the whole burden on America. And the pity is that we have some Americans here who fall into this altruistic mudhole dug by the

SHIP SUBSIDY FIGHT LOOMS

By FREDERICK J. HASKIN

Washington.—The ship subsidy bill, already strenuously fought over in preliminary skirmishes, is to be one of the main subjects before congress at the next session. Representative Green, of Massachusetts, author and champion of the bill, confidently predicts that his measure will come through the conflict safely, however, and that the American flag will once more assume its old prominence on the high seas. The shipping question is complicated and the bill is technical. The situation briefly is that an American merchant fleet, built at enormous cost in wartime, lies idle in our yards. The Shipping Board still has in its charge 1,675 ships, of which some 1,200 are inactive. The board would like to sell all of these ships to private firms, recover some of its investment, and go quietly out of existence. America has no large, dependable marine to carry its cargo, and here are almost 1,700 ships, the nucleus of a first class shipping industry. But private capital is not coming forward to operate the ships. As matters stand, a foreign freighter with cheap European or oriental labor can be operated so much more cheaply than an American ship that our business men will not try to compete. The great, potential American marine remains a troublesome white elephant on the hands of the shipping board. The arguments in favor of an American merchant fleet might be explained here. Chairman Lasker of the shipping board points out that while foreign ships have handled our trade more or less satisfactorily in the past, the situation is different now. When the United States was a debtor nation, he told the house committee on merchant marine, Europe could be depended upon to furnish us with ships because the ships would be used to carry goods to pay off our European debts. Now, we are a creditor nation and Europe has lost her strongest incentive to allow us the use of her ships. Hence, if in an emergency England or another maritime nation should require its merchant fleet for its own purposes, the United States might be left without the ships it needs. That this did not occur during the recent war Mr. Lasker has explained, was due to the fact that England needed supplies which the United States could provide. With a different combination of powers and in a different emergency situation, the United States might find itself seriously embarrassed for want of ships. Who's Who Today

SIR GEO. YOUNGER.
The person chiefly responsible for the recent resignation of Premier Lloyd George is Sir George Younger, a Scotsman, Chairman of the Unionist or Conservative Party organization in Great Britain. Sir George is a possessor of a large fortune made in the brewing industry and banking, is a hard fighter and for months had been openly planning the downfall of the Premier. Sir George took the position that he represented the rank and file of the Unionist Party in desiring to cut loose from the Liberals of the present Coalition. He contended the interests of the country and empire have been steadily sacrificed in the process of compromise necessary to carry out the policies of government. He felt only a return to strict party responsibility would save the day for Great Britain. He believed the Conservatives could win against the Labor Party on a straight issue. He was willing to risk over a Labor Ministry rather than follow what he called the present drifting policy. Under his direction a large number of the Unionist members of Parliament have declared that in the next election they will follow the Lloyd George Laborites and will seek seats as straight Unionist candidates.

Keep the Car Under Control.
Every father and mother knows the anxiety lest a child crossing the street at play or on the way to school may be struck by a carelessly driven motor car. Children are warned daily to be careful and not to cross a street without looking in both directions. But there always is danger that the youngster will be absorbed in something, and will forget. The only safe course for a driver on a residential street when a child is in sight is to assume that it may run across the street at any moment, and so to keep the car under complete control. Yet how many drivers do this? The child has no business in the street, they say. It ought to be careful. But it is perfectly known that childhood cannot be depended on to be careful. The driver must be careful for both. Any one who has not the sense of responsibility for this has no business to be at a car's wheel.—Kansas City Star.

JUST FOLKS

By EDGAR A. GUEST.

THE WORLD WE MAKE.
There's always a friend wherever you go. There's always a fellow who's good to know; A smiling eye and a helping hand. These are dotting this good old land; Most of the people who come and go. Are friendly folks who are good to know.

It all depends on the view you take. And the sort of a goal that you want to make; It all depends on the things you seek. You'll never see the sun over the peak; Brown and they'll offer you frown for frown, Snarl and you'll find it a snarling town.

You merely gather the fruit you sow— Sin and sinners alone you'll know; Fate and wherever you go you'll find Haired and malice of every kind. Life, and you'll learn ere the day is through. Liars have peddled their lies to you.

The world is a mirror upon the shelf. Wherein you may readily see yourself; You'd find it good if you seek the best. And, whether its north, south, east or west, If only the smile of a friend you show, You'll find it friendly wherever you go.

Travel the highways up or down On the village street or the busy town. And you will find, whatever the place, Men read your thoughts and they read your face. They'll play the friend or they'll play the foe And you'll find what you seek, wherever you go.

For a long time I have wondered what ailed so many young women who wrote me such pleasant letters trusting their secrets to my keeping. So many of them modestly mentioned their three main dimensions, height, weight, and age, which I indicated, practically perfect figures, and yet they seemed to reduce. Really it had become a veritable epidemic, this determination on the part of the girls to grow thin, and it worried me a good deal. I started it was a dangerous tendency of the sex. I'm a pessimistic person about all such matters. To my mind the women had lost their heads—that is, their hunk, and having made such a screen of success in that particular mutilation they were bound and determined to sacrifice any other feminine charms they might happen to find themselves possessed of. So I decided to look into the matter. This deplorable tendency all I could; at any rate I meant to lend no aid to it. If the women were going to make animated clothe racks, I thought I might as well look into the matter. I have laughably withheld all information or advice regarding reduction from querists whose three main dimensions have not clearly warranted an effort to reduce. I fear this practice has alienated the affections of many feminine readers or even won their animosity.

I find, now that I have made this new discovery, that I have missed my mark in dealing with most of these more or less perfect ladies who craved to make themselves imperfect. I am not repelling their appeals so coldly any more, but on the contrary I am giving to these very misguided girls to use a better remedy than reduction is for what ails them. Nowadays when any lady of reasonably passable dimensions writes that she cannot reduce I endeavor to bring a bit of blarney into the case and offer her a more attractive plaything to take her mind off from the fool notion of reducing.

The very important discovery I have made is this, that although some folks are unquestionably egregiously and in rare cases almost irretrievably fat, there are a surprising number who are not obese at all, not overweight, but who do have that fat feeling, and unless something is done to relieve the feeling many of them are in real danger of becoming fat. The fat feeling is most undesirable not only for the sake of good looks but for health's sake. That fat feeling is a highly sad feeling for anybody to have, and I

Q. Do other countries have Indian summer? H. J. D.
A. In Europe the recurrence of mild weather in the late autumn is known as St. Martin's summer and has been recognized for probably a thousand years. The legend is that St. Martin, dressed as a beggar, sat before the portal of a church on an exceptionally bleak day of the late fall. He was suffering severely from exposure. A knight, passing the church, saw the shivering beggar and, tearing his cloak in two, gave the beggar half. In recognition of the act St. Martin by a perpetual miracle, caused warm weather to return annually at this season. The half warmth or the half summer symbolizes the mild weather of the knight's tale. The knight's summer was an institution long before the Indians or Indian summer were known, but it is the same phenomenon known by a different name.

Q. In travelling and reclining a sweater can you be straitened out? J. P. D.
A. The sweater should be washed then mended, the arms being wound into balls. It should then be made into a ball and hung up to dry. If the yarn isn't fairly straight it may be dipped in a second warm water. After the sweater is dry, cover it with a damp cloth and press with a moderately hot iron. Any remaining wrinkle will be taken from the yarn.

Q. Is it really frozen out? J. P. D.
A. Chess, also called chess, is a kind of broom grass which is a troublesome weed in wheat fields and is often erroneously referred to as a variety of wheat. It bears a very slight resemblance to oats, and it is used as a food for stock, and so as to be used for food, is said to produce good effects. It is also used as a food for stock.

Q. Are there any wolves or coyotes south of St. Louis? W. H. A.
A. These animals are found as far south as Texas.

Do You Know How To Wash Your Sweaters?

Perhaps you are sending your sweaters to the cleaners when they become soiled. It may be that you don't realize that they can be washed with home soap and water. Nowadays when sweaters are so much in vogue that every one has one, it is a practical economy to do this work yourself. Both silk and woolen sweaters can be successfully washed at home. The work must be done carefully and directions followed closely. Government experts have made an exhaustive study of every problem of the laundry and have worked out with great care the proper methods to be used in washing silks, woolsens, cottons, and linens. The result of their study is contained in a free Government publication which our Washington Information Bureau will secure for you. Industrial Harmony Promotes Better Service

LABOR controversies are productive of needless loss to employee, employer, and to the public. This basic fact has long been recognized by the Standard Oil Company (Indiana) and is one reason why the Company has stressed the necessity of industrial harmony within the organization. It knows that through such harmony it can render the public a better service, and that by rendering such service the Company, its employees, and the public will profit.

In the Standard Oil Company (Indiana) every man earns his job; none inherits it. Every man has confidence in the knowledge and experience of his superior. Every employee knows that when he has earned promotion he will be advanced, for this is the time-honored policy of the Company, and, naturally, creates a spirit highly favorable to excellence of service.

Every member of the Board of Directors of this Company holds his position because of his experience and because he possesses specialized knowledge of the oil industry. From the Chairman of the Board to the man who fills your tank at a Standard Oil Service Station, every employee is inspired by a real desire to make the Company of the utmost service to the community.

Industrial harmony within the organization is the goal toward which the entire organization is striving. Every man and woman knows that such harmony works for happiness and contentment, promotes efficiency, and increases their power for service.

Industrial harmony means industrial progress. Industrial progress is made through co-operation, not through antagonism; through peace, not through controversy; through conservation, not through dissipation of energy.

Industrial harmony inevitably results in profit to the public by reducing the prices at which commodities may be sold. This is well exemplified in the Standard Oil Company (Indiana).

The conditions obtaining in this organization are not accidental; they are largely the result of a sane, constructive program "which avoids the foolish waste of radical experiment, the costly breaches of economic law, the unhappy consequences of social injustice."

THAT FAT FEELING
I certainly can sympathize with the victim, even though he be only a man. It must be terrible for a woman. I am exceedingly chary with sympathy; that fat feeling and premature baldness are about the only afflictions of men that excite my sympathy; and other things in women, and everything unpleasant in children can narrow my feelings. But there is no good excuse for having that fat feeling. Any one who is not an invalid may cure it in the privacy of home, by devoting about 15 minutes a day to an intensive study of the New Brady Symptom. And it's almost as cheap as air, just a simple request properly chaperoned by the indispensable stamped, self-addressed envelope.

QUESTIONS AND ANSWERS.
My child is left handed. Is it advisable to make him use the right hand for writing and other things? (Mrs. G. E. C.)
Answer.—90 per cent of children are naturally left handed. Many cases of "stuttering" and "trembling" when left handed children were forced to use the right hand for writing. There is no good reason for right handedness in a naturally left handed child and in my judgment it is better to let the child's nervous stability to do so.

Kindly give me all possible information about cancer of the breast. (Mrs. C. E. C.)

MONDAY, OCTOBER 30, 1922

Good and evil influences contend today, according to astrology. Early in the morning the sun is in a benefic aspect. During the business hours of the day is threatening. Venus and Uranus being adverse. In the evening Venus is friendly.

He who seeks employment should start before 9 o'clock and desist when he meets the first disappointment, for success and direct men as the sun ascends the heavens.

Women had better be quiescent in all matters where they must assure the co-operation of men. This is not the day for success.

It is not an auspicious rule for hotels or for large places of amusement.

Deceit and treachery are held to be encouraged by the constellation which suggests a desire to misrepresent and to win by unfair means.

Gambling and speculation will be common under this direction of the stars. Games of chance will increase in popularity.

The new moon of the 20th, which indicates danger of public excitement, is seen now as having brought a message of warning that extends to the end of November when sensational events are foreboded.

Increased expenditures by the army and navy again are forecast. Mortally among children who will suffer from contagious diseases is foreboded.

Diseases of the stomach and digestive apparatus are likely to become prevalent and there may be an unusual number of fevers.

The seeds emphasizing the need of extreme care in the disposal of garbage and the sanitation of cities.

Persons whose birthdate it is have the urgency of a year of great success in business. They may be disturbed by some illness in the home. Reversals in legal decisions are also indicated. Employees probably will be promoted.

Children born on this day are likely to be clever, but inclined to be careless. They should possess great perseverance.

Neenah Physician Is Honored For His Discovery

Most Unusual Document of Known Existence.

Dr. L. W. Griffin, of Neenah, Wisconsin, in recognition for his untiring efforts and signal success in an epidemic in 1893, was given a testimonial in writing by fifty-one ministers gathered in conference at Zion's Church, Milwaukee. The document is probably the most unusual in existence.

Terrible Epidemic.
Dr. Griffin had to deal with an epidemic of Diphtheria, Croup and Throat Trouble. He developed a prescription which brought marvelous results. Several other physicians used it, until it attracted the attention of half the state of Wisconsin and the ministers honored him with their most unusual document.

By reason of the fact that his medicine loosened and expelled the phlegm or mucus which gathers in cases of head colds, croup and the like, Dr. Griffin's prescription became known as "Mucosolvent."

It is purely a vegetable compound, a solution of antiseptics so combined as to be a specific for suppurative and inflammatory diseases of the mucous membrane.

If you have a cold that does not respond instantly to the use of Mucosolvent Salve, you should at once get from your druggist a bottle of Mucosolvent Liquid (75 cents and \$1.50 everywhere.) Directions will be found with each bottle.

COMMONSENSE HOME TREATMENT FOR HEAD AND CHEST COLDS

Get from your druggist a twenty-five cent jar of Mucosolvent Salve, the ingredients of which are used by physicians constantly. Melt a little in a spoon and inhale the fumes; this will clear the head instantly and the vapors will soothe and heal the inflamed membranes of the upper respiratory tract.

If a cold is in chest and deep seated, go to bed and stay there. Take a good laxative. Rub Mucosolvent thickly on chest and cover with warm flannel. Arrange bed clothes so that patient will breathe the vapors that arise. Apply the salve up each nostril and breathe deeply.

Tomorrow morning you will be like a new person. If not, call doctor, because it is possible for a cold that can't be broken with this treatment to turn into pneumonia in an hour.

IMPORTANT ROAD OPEN TO TRAVEL

Highway 36, Near Burlington,
Clear; 20 and 61 Best to
Milwaukee.

Milwaukee — The Milwaukee
Journal's tour department high-
ways report Friday says:

"This week's road report marks
one important change—the opening
of highway 36 to Burlington. This
means a concrete road to Burling-
ton and, by following 20 to Mil-
waukee and 12 to Lake Geneva, the
returning will be over concrete to
Lake Geneva with the exception of
six miles around Spring Lake.

Another new combination opened
up which will give the choice of
two concrete roads to Racine—
highway 15 or following 37 to
Thompsonville, then County Trunk
E over to Racine.

Highway 41 out of Waukesha is
still under construction and will
not be open for two weeks. The best
route to Madison and the Dells still
is highway 19 and 12.

Highway 51 to Mukwonago is
now open. To Janesville and Do-
let, 10 to Beloit, is the route re-
commended.

Highway 55 is now concrete to
Kewaskum. There is still a detour
between Kewaskum and Eden but
this is in good condition.

Highway 17 to Sturgeon Bay
has one short detour just out of
Two Rivers."

ORFORDVILLE

Orfordville—A teachers' institute
for Rock county rural teachers was
held at the school house Saturday with
a good attendance. Mr. and Mrs.
Charles Allen, Sparta, visited at the
home of Mrs. Miles' sister, Mrs. Wil-
son, Friday and Saturday. Hen-
drie Billings, Baraboo, is visiting
Orfordville friends. Mr. Miles, who
was a resident of Orfordville many
years, left here about 20 years ago.
This is his first visit here since
that time. Mr. and Mrs. John Seck,
Franklin and daughter, Janesville,
were among those who attended the
institute. The party at the Methodist
church Friday night. Mr. and Mrs.
Charles Taylor visited Beloit friends
Sunday. Fred Cole suffered a slight
stroke of apoplexy a few days ago.
He was able to be out Saturday. A
number of women surprised Mrs. O.
A. Peterson Saturday, the occasion
being her birthday anniversary.

NORTH SPRING VALLEY

North Spring Valley—Dr. Wilbur E.
Hoyt, Paw Paw, Mich., called at his
farm here Saturday. Mr. and Mrs.
A. Greenwood, Beloit, are visiting at
the L. Barringer home. A. Swayze
will again work the Hoyt farm. Mr.
and Mrs. Lewis, Boe, Beloit, visited
here recently.

BARE FACED FAKE OF OIL PROMOTERS TO SELL STOCKS

Washington—A case of bare-faced
misrepresentation by a company en-
gaged in selling oil stock is brought
to the attention of the public by the
Director of the U. S. Geological Sur-
vey. The company, in order to impress
the reader with the belief that the gov-
ernment has endorsed the particular
enterprise as a "sure thing," a map
of the United States published by the
U. S. Geological Survey is said to be
reproduced. On the map as printed
in the rather elaborate prospectus a
route of supposed oil drainage ex-
tends from the St. Lawrence river, in
Canada, southwestward across the
Adirondacks and the intervening
states to a point on the Mississippi
river. Another route of presumed
oil drainage is shown as extending
from the Lake Superior Iron region
across Wisconsin, Illinois and south-
ward along the Mississippi. A third
route of drainage is mapped ex-
tending from the Colorado river, in
western Montana, through the Yel-
lowstone Park, and heading in a be-
lieve for eastern Louisiana. As is
usual in stock promotion literature,
this particular instance lies on the
east side of the Mississippi river in
Louisiana. The title of this map
reads "United States Geological Sur-
vey map showing center of the oil
drainage of the United States." On an-
other page of their pamphlet under
the heading "What Uncle Sam says
about it," the promoters say "Look at
this map which shows the results of
the United States Geological Survey.
The map was made from Plate I, Bul-
letin 429. This survey shows the oil
drainage of the United States. As
you can see, our oil drainage is
right in the center of it."

The government geologists are un-
prejudiced and their conclusions are
always regarded as authentic and
final.

So far as the last sentence is true,
Director Smith of the U. S. Geological
Survey, states without prejudice that
this "final conclusion" is that the au-
thors and makers of this prospectus
are plain crooks. There is no regu-
lation, or connection between the
government map specifically referred
to and the oil map of the promoters.
The U. S. Geological Survey or any
other authority ever publish such a
"drainage" map. It is not only frau-
dulent and untruthful in every re-
spect but absurd in the extreme.
Judged by their advertising matter
alone, the promoters are either crude
crooks on their own account or the
simple-minded dupes of their "ex-
perts." In either case they are not
worthy the advice of the small in-
vestors to whom they make their ap-
point.

JEFFERSON

Jefferson—Mr. and Mrs. Edward
Hawes, Rochester, N. Y., were sur-
prised when they arrived at the home
of Mr. Hawes' parents, Mr. and Mrs.
George Hawes, this city, Friday
night by a number of friends who
gathered to celebrate their 25th wed-
ding anniversary. Five hundred was
played. Mrs. John Andre won the
women's first prize and Arthur Rat-
ten's men's first prize. The celebra-
tions went to Mrs. John Hannon and
J. Noble. Piano music was fur-
nished by Mrs. Fred Hanover. Lunch-
on was served at midnight. Mr. and
Mrs. Hanover were presented with a
bouquet of baby chrysanthemums.
The following guests were present:
Messrs. and Mrs. Theodore J. Hel-
man, Fred Hanover, John Andre,
Henry Holt, J. Paul Noble, John Hen-
son, Frank Allen and Arthur Rat-
ten. Miss Lillian, Miss Margaret
Helman, Miss Lillian Holt, and Har-
old Noble, all of Jefferson, and Mr.
and Mrs. Fred Helle and George Han-
over, Milwaukee.

The Club club met at the Max
Bulow home Friday night. Prizes
were won by Mrs. John Prust and
Henry Guder. Waterloos: consolation
by Mrs. Louise Korner, Watertown,
and Eugene Peterson, Watertown.
Lunch was served at 11 o'clock. The
club will meet with Mr. and Mrs. John
Hottel, Watertown, Wednesday night.
The following were present: Messrs.
and Mrs. Albert Gordon, Bruno Gottschalk,
Henry Kuntz and James Clark, Misses
Martha Clark and Helen Gottschalk,
all of Watertown; Mr. and Mrs. Louis
Korner, Mr. and Mrs. Oscar Krue-
ger and Walter Koerber, Watertown,
and the following Jefferson people:
Mr. and Mrs. John Prust, Mr. and
Mrs. Lowell Ives, and Sheriff and Mrs.
A. N. Wagoner.

Many county teachers attended the
second section meeting held at Oak-
land Center Saturday. The program
was as follows: Opening exercises by
Mrs. N. Dock. Business in the Rural
Schools. Principal Bray: first grade
reading. Bernice Armstrong: "Ac-
ciculture." Viola Guttenberg: "The
Teaching of Spelling." Florence Leitz:
"High School Physicals." Mr.
Thorne: "Tilling Land." J. M. Coyner.
Construction of Highway 26 was be-
gun by Joseph Connell Friday. Nearly
100 feet of concrete was laid that day.
Work did not progress as rapidly as
usual on account of a shortage of
trucks and the inconvenience of load-
ing the gravel. However, Mr. Con-
nell's pit and the whole number of
feet of concrete laid daily will be
an average of 1,000 feet a day will be
laid. Mr. Connell began working from
Watertown and is working toward
the south. He expects to complete
the first mile by the end of the week.

Citizenship Students Make Heroic Efforts to Learn English Language

At Janesville's vocational school,
twice a week a small group of
struggling, hardworking students
meets for two hours' instruction in
a subject that will make them bet-
ter citizens. This group is the citi-
zenship class of night school, taught
by Emerson Cole. Made up entirely
of people who can hardly speak, to
say nothing of read, English, they
all hard-workers, hard-workers when
they are in class at least be-
cause for one who has been brought
up conversing in the English lan-
guage, it is almost impossible to re-
call the English words and write.

call the English words and write.

cause for one who has been brought
up conversing in the English lan-
guage, it is almost impossible to re-
call the English words and write.

An interest and a concentration
never found in ordinary school, is
found here. All there go of their
own free will and even pay a \$5 fee
to attend. They seldom miss a
night's instruction. Mr. Cole said
and to many it is probably their
only dissipation. They hang on over-
head of their instructor, and
interest fairly gleams in their
bright eyes. They are full of hum-
or, and willing, often too willing,
to help each other out. When one is
stuck on some word, the teacher
will help him out. Although this is
a practice that is not tolerated in
the public schools, it is allowed with
these people, as it increases their
interest.

German Girl Pride of Class
Discipline does not have to be
mentioned to them. They know
enough to keep quiet when they

A daughter was born to Mr. and Mrs.
Will Howard, La. Prairie, Oct. 26.
Mrs. Howard will be remembered as
Nell Green. The first number of
the lecture course given by the
Birdman, Charles Gort, Tuesday.
He showed pictures of the birds,
mimicked them, gave their calls and
did their habits. He opened and
closed the program by singing so-
ngs. —Miss Mable Torvillier en-
tertained Rev. Mr. and Mrs. J. H. Col-
lins, Shopshire, at supper Thursday
night. —Mrs. and Mrs. Fred Ledka
motored to Beloit Sunday. —The Pa-
rents' Teachers meeting, at City Hall
Wednesday evening was well at-
tended. Addresses were given by
Prof. F. O. Holt, Janesville, and
Thomas Lloyd Jones, state inspector
of schools.

Wisconsin Highway Map Showing Detours, at Gazette

A large highway map showing all
changes in detours, highway condi-
tions, etc., comes to the Gazette each
week and is posted on the wall of
the building. Those desiring good
information should consult this
map for the latest highway news.

A lavender "flapper" hat, and Emma
dressed in good taste in darker
clothes. Emma is a milliner's helper,
and is well educated in her mother
tongue. She has only been over
here two months, but has the academic
education in Germany. She can read
English now, but with an accent that
makes it seem at times more
like German. She was proud when
Mr. Cole asked her Thursday night
to read a long and difficult piece in
English before the class. She even
got past such words as citizenship,
hospitality, and privilege. Emma is
the admiration of the class.

Colors are interesting
Other members of the class of 12
are interesting, and all could prob-
ably tell interesting stories if they
wanted to. Now, however, they are
too bashful, and their lack of knowl-
edge of English is too great a handi-
cap.

There is Francis who came over
April 11, 1921, and is now working
on the new high school. He is an
Austrian, but looks and talks more
like an Italian. Axel and Harold, who
came here a year ago, are young married
couples and two of the brightest of the
class. They both came to this country
from Norway in April, 1922—you
should have heard them try to tell
it—and are now trying to learn to
speak English. Mrs. Luntman has
a bad time in spelling "the," "two,"
"each," "oh" was the best she could
do until after a great deal of coach-
ing she got the "oh" a little better.
Axel and Harold, another Norwe-
gian, have a hard time with their
"it." To them, there is no such let-
ter in the language. It is "yay."
Mrs. "yay" and even much
coaching does not enable them to
get that sound in the letter.

Besides these three, there are two
other Norwegians who came into
the class this week. They took the
instruction last year, and can now
read and write and speak English
well, but with considerable accent.
They will be given some advanced
work in the class this year. All the
others in the class are on about the
same standard, although the bright-
ness is not average at all.

One Chinese in Class
Quon Fook is the only Chinaman
there. He has been here some time,
and can say "very" well. Most peo-
ple of that nationality cannot be
easily taught to say it other than
"vay."

The people are now on Lessons
5 and 6 in their notebooks. They
take two lessons a week, consisting
of reading and writing and then

the oral work with the alphabet.
Mr. Cole has had experience in
teaching foreigners, secured for two
years in the army. Other than his
night work, he has the academic
work of the vocational school
teaching arithmetic and English to
young boys. He graduated from the
University of Wisconsin only last
spring, after three years there and
two in Beloit college.

Booklets Offered on Many Subjects

School lunches, canning, care of
floors, game laws and child's
health are but a few of the sub-
jects on which pamphlets are is-
sued by the Gazette Information
Bureau at Washington, D. C., con-
ducted by Frederick J. Haskin. One
of the pamphlets is in the
Gazette daily is necessary to se-
cure a pamphlet on any of the great
variety of subjects. Last weeks
were issued as follows: School
lunches, canning, floors and
child's health, one each; laundry;

two; and game laws, four. In ad-
dition to this a number of mis-
cellaneous bulletins are issued each
week.

The Information Bureau is also
to answer any questions asked by
Gazette readers, the only require-
ment being the enclosure of a
stamped addressed envelope for the
answer. Last week, Mr. Haskin
gave out facts on many subjects.
One was on the school laws of Mon-
tana, the Stub-Toe state. The
flower is the butter blue, and men
on the ranches there and other
places of the west are still called
"cow-boys," although most of them
have few of the qualities of the old
cowboys.

Senator Newberry is receiving so
much notoriety, Haskin said, be-
cause he was indicted under the
corrupt practices act and accused
of employing an unlawful amount
of money to secure the nomination
for United States Senator. He was
convicted and sentenced to impris-
onment and fine, but appealed the

case and the judgment was re-
versed.

A common term among politi-
cians since then has been that to
"Newberryize" a thing is to en-
deavor by means of money to bring
it to pass.
